CONSTRUCTION TAP AGREEMENT

Member name _____

Account # _____

Date _____

CONSTRUCTION TAP REQUIRES AN APPROVED SOIL PROFILE FROM D.E.Q.

A construction tap will be installed for a period up to six (6) months. This can be renewed for an additional time period up to six (6) months, with the total time frame being one (1) year as long as no permanent piping is connected to the water meter assembly.

Defaulting on any aspect of this agreement will cause the meter to be pulled and all monies paid to the district to be forfeited by the landowner.

Upon completion and certification, by DEQ of the septic system, a completed DEQ certification form must be presented at the office of rural water district No 1. After all paperwork has been approved; the construction tap will then be removed and replaced with a permanent water benefit unit.

All construction meter will be removed after one (1) year, no exceptions, and no monies paid for the construction tap will be refunded.
